

Lens Station for SONY E Instruction Manual

I Lens Installation and Detachment I

• Attaching the lens

- ① Remove the body cap of the Lens Station.
- ② Align the mount index (red) of the Lens Station to the mount connection point (white) of the lens, then rotate the lens in the CLOSE direction until a clicking sound occurs.

• Detaching the lens

With the lens-detaching button of the lens station pressed, detach the lens by rotating it in the OPEN direction to the end.

I EMC Product I
